

# AP PREP ONLINE

## SPRING 2021

AP exams cover an entire year of material. Preparing for them is always a challenge. And it's been even tougher this year, with the pandemic disrupting our classrooms and making it harder to learn.

We're here to help – with our AP Prep classes. These combine our **subject-specific expertise** with our **proven test-prep strategies**. We don't try to cover every single detail. We just focus on the skills and concepts that you really need to know, expertly explained by our **world-class teachers**. Our **small, seminar-style classes** offer plenty of opportunity for questions and discussion. And we offer lots of **extra help and practice** on the most difficult components of the test – like the dreaded FRQs.

### AP PREP CLASSES

#### CHEMISTRY

Wed. 4:30pm - 7:30pm  
March 17th - May 5th  
AP Exam: May 7th
