H3 Online: How it Works

The online classes are designed to mirror the in-person classes as closely as possible. But we know that online classes can never be a perfect substitute for in-person teaching, so we have added in some extra components to ensure you get the best possible experience and results. We made our class sizes much smaller to ensure that students online get the most possible interaction with teachers **AND** we're including one-on-one tutoring with all of our summer options, along with extra online resources, test review recordings, and practice materials.
