

# AP PREP IN-PERSON SPRING 2023

AP exams cover an entire year's worth of material and preparing for them is always a challenge, especially if you took the AP class in the fall.

We're here to help –with our AP Prep classes. These combine our **subject-specific expertise** with our **proven test-prep strategies**. We don't try to cover every single detail. We focus on the skills and concepts that you need to know, expertly explained by our experienced teachers. Our **small, seminar-style classes** offer plenty of opportunity for questions and discussion, and we also offer practice on the most difficult components of the test – like the dreaded FRQs.

## AP PREP CLASSES
